

Rum Flights

Each flight contains three ¾oz pours in brandy snifters. All rums are subject to availability and substitutions of equal value may be made if a rum is temporarily out of stock

GOOD CHEAP SHIT about 15 bucks

A good friend would utter this ridiculous statement, back in the day, when someone was making a liquor run. These rums are delicious and affordable; some might even say a royal motherf*cking flush! The price of this flight, adjusted for today's economy, represents the amount ole "8 Dollar Fahr" would pony up no matter how much he ate or drank. Best deal in the house or if you just want to get away from it all...

ESTD That Ole Devil Rum 2009

No other man made spirit has enjoyed the fame and infamy as that ole devil rum. A by-product of sugar production, rum fueled the slave trade, helped keep the British Navy afloat, inspired pirating on the high seas and was a major inspiration for the American Revolution.

True rum is an aged product, golden to dark amber in color and full of flavor and spice. It has more in common to Cognac and fine Scotch than to the white spirits, such as vodka and gin, to which it is usually draws it comparisons. In the Caribbean, aged rums are savored straight up in brandy snifters before or after a meal.

The Rum House offers a few rum flights which allow you to sample different producers and vintages from some of the rums that highlight our list and that we have painfully sacrificed countless hours away from our wives to hand select for your drinking enjoyment.
